NOTICE OF PRIVACY PRACTICES

This notice describes how your medical information may be used and disclosed, and how you can get access to this information.

Chaparral House is required to provide you this Notice so you understand how we may use or share information from your Designated Record Set. The Designated Record Set includes financial and health information referred to in this Notice as “Protected Health Information” (“PHI”) or simply “health information.” We are required to follow the terms outlined in this Notice. If you have any questions about this Notice, please contact Ena Romero.

UNDERSTANDING YOUR HEALTH RECORD AND INFORMATION

Each time you are admitted to Chaparral House, a record of your stay is made containing health and financial information. Typically, this record contains information about your condition, the treatment we provide, and payment for the treatment. We may use and/or disclose this information to:

- plan your care and treatment
- communicate with other health professionals involved in your care
- document the care you receive
- educate health professionals
- provide information for medical research
- provide information to public health officials
- evaluate and improve the care we provide
- obtain payment for the care we provide

Understanding what is in your record and how your health information is used helps you to:

- ensure it is accurate
- better understand who may access your health information
- make more informed decisions when authorizing disclosure to others

HOW WE MAY USE AND DISCLOSE YOUR PROTECTED HEALTH INFORMATION

The following categories describe the ways we use and disclose health information. Not every use or disclosure in a category may be listed. However, all of the ways we are permitted to use and disclose information fall into one of these categories.

- **For Treatment.** We may use or disclose health information about you to provide you with medical treatment. We may disclose health information about you to doctors, nurses, therapists or other personnel who are involved in taking care of you at Chaparral House. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can plan your meals. Different departments may also share health information about you in order to coordinate your care and provide you medication, lab work and x-rays. We may also disclose health information about you to people outside Chaparral House who may be involved in your medical care after you leave. This may include family members or visiting nurses who provide care in your home.
- **For Payment.** We may use and disclose health information about you so that the treatment and services you receive at Chaparral House may be billed to you, an insurance company or a third party. For example, in order to be paid, we may need to share information with your health plan about services provided to you. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.
- **For Health Care Operations** We may use and disclose health information about you for our day-to-day health care operations. This is necessary to ensure that all residents receive quality care. For example, we may use health information for quality assessment and improvement activities, and for developing and evaluating clinical protocols. We may also combine health information about many residents to help determine what additional services we should offer, what services should be discontinued, and whether certain new treatments are effective. Health information about you may be used by our business office for development and planning, cost management analyses, insurance claims management, risk management activities, and in developing and testing information systems and programs. We may also use and disclose information for professional review, performance evaluation, and for training programs. Other aspects of health care operations that may require use and disclosure of your health information include accreditation, certification, licensing and credentialing activities, review and auditing, including compliance reviews, medical reviews, legal services and compliance programs. Your health information may be used and disclosed for the business management and general activities of Chaparral House including resolution of internal grievances and customer service. In limited circumstances, we may disclose your health information to another entity subject to HIPAA for its own health care operations. We may remove information that identifies you so that the health information may be used to study health care and health care delivery without learning the identities of residents. We may disclose your age, birth date and general information about you in our newsletter, on activities calendars, and to entities in the community that wish to acknowledge your birthday or commemorate your achievements on special occasions. If you are receiving therapy services, we may post your photograph and general information about your progress.

OTHER ALLOWABLE USES OF YOUR HEALTH INFORMATION

- **Business Associates.** Some services at Chaparral House are provided through contracts with business associates. Examples include medical directors, therapists, outside attorneys, and a copy service we use when making copies of your health record. When these services are contracted, we may disclose your health information so that they can perform the job we've asked them to do and bill you or your third-party payer for services rendered. To protect your health information, however, we require the business associate to appropriately safeguard your information.
- **Providers.** Many services provided to you as part of your care at Chaparral House are offered by participants in one of our organized healthcare arrangements. These participants include a variety of providers such as physicians (e.g., MD, DO, Podiatrist, Dentist, Optometrist), therapists (e.g., Physical therapist, Occupational therapist, Speech therapist), portable radiology units, clinical labs, hospice caregivers, pharmacies, psychologists, LCSWs, and suppliers (e.g., prosthetics, orthotics).
- **Treatment Alternatives.** We may use and disclose health information to tell you about possible treatment options or alternatives that may be of interest to you.
- **Health-Related Benefits and Services and Reminders.** We may contact you to provide appointment reminders or information about treatment alternatives or other health-related benefits and services that may be of interest to you.
- **Fundraising Activities.** We may use health information about you, such as your name, address and phone number, and the dates you received treatment or services at Chaparral House, to contact you in an effort to raise money for Chaparral House.,
- **Facility Directory.** We may include information about you in a Facility directory while you are a resident. This information may include your name, location in the Facility, your general condition (e.g., fair, stable, etc.) and your religion. The directory information, except for your religion, may be disclosed to people who ask for you by name. Your religion may be given to a member of the clergy, such as a priest or rabbi, even if they don't ask for you by name. This is so your family, friends and clergy can visit you in the Facility and generally know how you are doing.
- **Individuals Involved in Your Care or Payment for Your Care.** Unless you object, we may disclose health information about you to a friend or family member who is involved in your care. We may also give information to someone who helps pay for your care. In addition, we may disclose health information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

- **Military and Veterans.** If you are a member of the armed forces, we may disclose health information about you as required by military authorities. We may also disclose health information about foreign military personnel to the appropriate foreign military authority.

- **Research.** Under certain circumstances, we may use and disclose health information about you for research purposes. For example, a research project may involve comparing the health and recovery of all residents who received one medication for the same condition to those who received another. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of health information, trying to balance the research needs with residents' need for privacy of their health information. Before we use or disclose health information for research, the project will have been approved through this research approval process. We may, however, disclose health information about you to people preparing to conduct a research project so long as the health information they review does not leave Chaparral House.
- **Workers' Compensation.** We may disclose health information about you for workers' compensation or similar programs. These programs provide benefits to our staff for work-related injuries or illnesses.
- **Reporting** Federal and state laws may require or permit Chaparral House to disclose certain health information related to the following:
